Kloehn Launches New Precision InLine Pumps Series

New pump product line to offer industry leading accuracy and repeatability with minimal footprint and price.

LAS VEGAS— June 4, 2009 — Kloehn, one of the most recognized names in the manufacture of fluidic components and subassemblies, has announced the launch of its newest product line, the 1000 and 2000 InLine Pump Series. These new pumps offer several application specific configurations allowing original equipment manufacturers to maximize their accuracy and repeatability while minimizing size and internal volumes.

“With this new product line, Kloehn is able to provide manufacturers with various fluid dispensing options in a compact device, at a tremendous value,” says Mike Marshall, Kloehn Managing Director. “With syringe and piston driven options, available solenoid valve configurations, different body materials and full stroke resolution options, the 1000 and 2000 Series InLine Pumps offer true precision fluidic solutions.”

For more information on Kloehn products, please contact Steve Szabo at (800) 358-4342 or email via email at info@kloehn.com.

About Kloehn,

Kloehn, Inc. (www.kloehn.com), a Norgren company, is a leading OEM supplier of liquid handling components for manufacturers of laboratory instrumentation. Products include precision syringe pumps and valve drivers, shear valves, solenoid valves, syringes, probes, and needles. Kloehn also offers customized engineering and manufacturing solutions from its ISO 9001:2000 certified facility.

About Norgren

Norgren is a world leader in the supply of pneumatic motion and fluid control technologies for a diverse set of industries such as life sciences, commercial vehicles, and industrial automation. Posting 2008 sales of \$1.3 billion, its 6,000 worldwide employees are committed to optimizing technological performance for its customers' advantage. With established manufacturing facilities in the USA, Germany, UK, Switzerland, Mexico, the Czech Republic, and China, Norgren has the global manufacturing and supply chain expertise to support customers around the world. With a sales and service network in 80 countries and dedicated technical centers in the USA, Germany, UK and China, Norgren has the know-how to support the most demanding international and local projects. Norgren is a subsidiary of the \$2.9 billion IMI PLC.
